Welcome to the Raw Power Collection...

Raw Power is committed to pursuing excellence and the continuous improvement in the products we supply and the services we provide. With over 30 years participation in athletics and many hours of intense training experience in the gym, we have created a line of accessories and fitness gear that is a cut above, with products that provide fitness consumers with a design edge to improve their performance and maximize their efforts. Raw Power products are available in many countries worldwide under our own brands, as well as our customer's private label, and may be purchased at major retailers, sporting goods stores, fitness specialty dealers, sports nutrition outlets, pro shops, fitness centers and gyms. We are a customer oriented company that respects and appreciates feedback from our dealers, as well as the athletes and fitness enthusiasts that choose to train with Raw Power Gear.

We have spent countless hours sourcing quality materials and engineering our factories to manufacture to the highest standards of quality and workmanship. For all our efforts we are recognized for our attention to detail, and this is why fitness consumers worldwide have chosen to work out with Raw Power gear on a daily basis.

While operating from a modern production and warehouse facility in Ontario, Canada, we have grown into an industry leader, supplying the international marketplace with a large assortment of very functional and unique products. Our focus remains dedicated to the development of new and innovative products for the fitness industry, and we are pleased to present Power Grabs, the # 1 lifting grip accessory worldwide, and Boa Grip collars, the world's 1st soft weight collar designed to secure plates on a bar. Both were developed and tested by staff through many hours of research, and actual training use in the gym. In recognition of the expanding women's market, we are also thrilled to present the new Power Diva Body Gear line, a growing range of products designed to appeal to all aspects of the women's fitness category.

We value our customer's support and appreciate all inquiries for our company's future development. Call us today or visit us on line at www.rawpowerfitnessgear.com.

Raw Power is Your Powerful Choice for Fitness Gear!
Motivation and persistence are keys to success.

Raw Power women's gloves are custom designed to fit the unique shape and sizing requirements of the female hand. We lead the market in creating new styles with specific features for what today's active women require. With gloves being most beneficial for hand protection & providing a non slip grip, our women's gloves target these very needs. Power II, sport and exercise mesh back for cool comfort, cross training wash and dry amara leather for durability, and wrist wrap gloves with protection & support for the serious lifter. Our Power Diva gel padded fitness gloves with super grip palms are a hot item with women who value a well designed work out glove with some fashion flair. Raw Power's full line for the active woman assures a size, design, and fit to suit all women's needs.

Raw Power's pro active approach to research and development of new product design ideas has contributed significantly to the growth of our company. In particular, attention to detail in building strong and durable lifting aid products used in bodybuilding, strength training & powerlifting, has earned us a reputation for supplying premium made products that stand up to the test, and consistently exceed customer expectations. Our straps, hooks & support wraps are made with special emphasis on using quality materials. Heavy stitching, vinyl coated steel, cordura nylon, and cotton military webb are features of these and all products that elevate their perceived value.

Raw Power's large assortment of accessories & fitness gear includes a variety of training and conditioning items used in today's independent & franchise gyms and fitness centers, as well as many personal home gyms. Constructed using only quality and durable materials, these include hanging ab straps, leg cuffs, dipping belts, head gear, and a number of weight stack cable attachment items designed to benefit any exercise program. Two very unique Raw Power designs and inventions include Power Grabs, the very popular, # 1 rated non slip lifting grip, and our Boa Grip weight collars, the world's 1st soft collar to secure plates on all standard and Olympic size bars.

Raw Power leather, fabric, and power belts are designed in a variety of styles to target the needs of both men & women who require an effective means of back & abdominal support. Belts are most beneficial when lifting, exercising with weights, and participating in any recreational or sports activity. Belts help to minimize hyper-extension and torso flexion. They also assist in spinal alignment and increase the body's intra-abdominal pressure to facilitate lifting heavier loads.

Raw Power's large selection ensures you have choices to suit all needs and requirements. We have leather for stiffer support, power for strength training & competition, as well as padded and fabric models for more comfortable & flexible support in all lifting activities.

RAW POWER
Your Powerful Choice for
Accessories & Fitness Gear

Easy on / Easy off, adjustable.

Universally sized to fit all makes of bars.

Extremely tight gripping, will not loosen, slide or release unless you want them to.

The tighter you pull, the tighter the collar grips.

One hand adjustable tension to accommodate any level of strength.

VIRTUALLY INDESTRUCTIBLE!

Some ball bearing collars may jam and damage your bar, other screw tightened collars may be over tightened and do not release easily. Some spring collars lose their tension strength over time.
